

Octo+ 840
Height 146 cm
 ref. (see colours)

Odyssea

A versatile pool with great depth. Customised finish!

Structure made of class IV treated pine, Magic filtration group, removable access steps, composite wood coping, dark blue Aqualiner® 0.85 mm, dechlorinator and bubble cover:

Standard compliant equipment

Every Procopi pool complies with the standards in effect governing pool kits, including the new French standards that came into effect in February 2011:

- **NF P90-316** >> Private family pools - pool kits - general safety requirements and test methods.
- **NF P90-317** >> Private family pools - means of access - general safety requirements and test methods.

- **NF P90-318** >> Private family pools - filtration groups and/or filtration systems - general safety requirements and test methods.

Accreditation tests are carried out by an independent laboratory that is entitled to demand modifications to the equipment or installation instructions should it deem this to be necessary. Once all tests have been passed, the laboratory issues a certificate for each pool model tested.

Procopi is PEFC certified (chain of custody: FCBA/12-01382) for procurement of wood from sustainably managed forests according to the regulations set out by the Programme for the Endorsement of Forest Certification.

The PEFC label pertains to wood from European forests. Labelled CTB-B+ SP by the CTBA (The denomination SP was created for CTB-P+ and CTB-B+ certifications to indicate enhanced retention of organic copper type products).
