

Bar covers

for existing pools and pools under construction

Delta

CALYPSO by PROCOPI

**Summer and winter,
cover your pool in safety**

Calypso, three covers in one

CALYPSO is a safety cover that replaces the winter cover, the summer cover and its cover roller.

In addition, it secures your pool as required by law.

By choosing CALYPSO, you save time, money and storage space.

CALYPSO is a PVC cover reinforced with aluminium bars. It rolls up and out easily to protect your pool.

Calypso is well designed

To optimise the safety and protection of young children and pets, a stainless steel cable is fitted along both lengths of the CALYPSO cover to stiffen the edges of the cover and stop anyone from sliding underneath. All the fasteners are sheathed in protective sleeves to prevent abrasion of the cover while it is being deployed.

Calypso is simple to use

Simply pull on strap to roll it out. Roll it up without stress or strain using a crank. No complicated mechanisms, no risk of breakdown.

Calypso is practical

A single cover to install for years of care-free enjoyment. You escape the nuisance of seasonal cover changes and the drudgery: cleaning, folding and storing the cover removed unfolding and installation of the other cover.

Choose comfort, choose CALYPSO.

Calypso is easy to clean

With its two lacquered surfaces, CALYPSO stays clean, it is easily washed down with a blast of water.

Calypso, your versatile year round safety cover

Thermal insulation

During summer, it guards your pool against cool nights and cold winds. Efficient thermal insulation keeping your pool precious degrees warmer.

Water purity

During winter, it keeps leaves and dirt out of your pool. Summer reopening is made easy, fewer water treatment products are required. Your pool water is cleaner and costs are reduced.

Safety

Year round, it provides effective protection against the risks of accidental falls and their consequences.

Optimised functionality

Removes the clutter created by accessories, it also replaces the cover roller.

Calypso is harmonious

To enhance the cover's visual appeal, the bars are lacquered (apart from the grey bars which are anodised) and coloured to match the cover fabric, a PROCOPI exclusive.

CALYPSO is available in 4 colours:

blue/beige, green/beige, sand/beige and grey/beige.

The underside of the cover is always beige to prevent staining that could occur where the fabric is in contact with the coping.

Calypso is strong

CALYPSO comprises a UV treated, strong (650g/m²) hard wearing polyester fabric membrane. The cover fabric continues underneath the bars for enhanced mechanical strength.

This strong membrane is lacquered on both surfaces to withstand wear and tear, physical/chemical attacks and the weather. Extruded aluminium bars strengthen and stiffen the cover so that it would not be damaged by a child falling onto it.

Winter kit

- Inflatable floats made of 0.50 mm thick PVC with a valve for inflation and eyelets for attachment.
- 2 floats for pools less than or equal to 4 m wide.
- 3 floats for pools more than 4 m wide.
- Straps and attachment fittings.
- 1 foot pump.

A motorised crank is available as an option.

Fast and easy to use, a cover over a 10 m pool can be rolled up in 45 seconds.

CALYPSO, a Procopi Group trade name

CALYPSO is made by PROCOPI, the No. 1 French pool equipment manufacturer. This is the best possible guarantee of quality and continuity that you could have.

Pool width	Rolling the cover up/ out	Number of people
less than 5 m	Rolling up/ rolling out	
more than 5 m	Rolling up	
	Rolling out	

The CALYPSO cover can be rolled up or rolled out in less than 5 minutes

Legal information

CALYPSO complies with the French standard NF P 90-308 (May 2004 version concerning pool protection) in as far as all the components of the cover are provided by PROCOPI. A safety cover for pools intended to deny children under five access to the pool. This cover is no substitute for common sense or individual responsibility. Nor is it intended to replace the vigilance of parents and/or responsible adults which remains key to ensuring the protection of young children.
